

INTERNAL NOTICE IN RELATION TO PERMANENT EMPLOYMENT CERTIFICATION

This notice is being provided as a result of the filing of an Application for Permanent Employment Certification (ETA Form 9089) for the job opportunity described below. Any person may provide documentary evidence bearing on the application to: U.S. Department of Labor, Employment & Training Administration, Office of Foreign Labor Certification, 200 Constitution Avenue NW, Room N-5311, Washington, DC 20210.

Position: Façade Engineer (Multiple Openings)

Employer: JESKE Engineering, Inc.

Location: Kansas City, MO.

Responsibilities: The Façade Engineer is responsible for supporting our Façade Engineering & Drafting team to provide accurate engineering design calculations for glass & glazing systems and building envelope. Specifically, the Façade Engineer will design and develop technical calculation packages for projects that involve curtain wall, storefront, skylight, glass railing, sunshade, louver, sunscreen, glass floor design, and all other glass and aluminum panel engineering; compile, analyze, manage, and report engineering and project data; performance testing reports, and project specifications memoranda; research latest structural and thermal materials as well as other emerging techniques for façade engineering designs; carry out glazing and framing sizing, wind load and anchor calculations to ensure quality deliveries and compliance to local codes and regulations; and attend project-focused technical meetings and internal/external workshops; among other related duties as assigned.

Education: Bachelor's degree in Civil Engineering or Architectural Engineering.

Requirements: 6 months of experience in the job offered or related. Other special requirements include: 6 months of experience designing and developing structural technical solutions to meet clients' needs; 6 months of experience analyzing and evaluating structural performance of various construction solutions; 6 months of experience developing structural models using available software and building codes as required; 6 months of experience reviewing architectural and structural designs, drawings, building codes, and reports from external engineers; and 6 months of experience preparing and delivering clearly written reports and communications to supervisors, clients, and other stakeholders based on site data and relevant analysis.

Rate of Pay: \$70k - \$85k

Contact: Qualified applicants please email resume to apply@JEIstructural.com, clearly referencing job #JEFE01.
Proof of authorization to work in the U.S. is required if hired.

The preceding notice was posted in an unobstructed, conspicuous, and clearly visible location at 10101 N Ambassador Dr., Kansas City, MO 64153.
